

## **OUTDOOR WARNING SIRENS**

**The City of Odessa has nine outdoor severe weather sirens that are rated at a 100 percent outdoor coverage area for Odessa. This is an outdoor warning system and you may or may not receive the notice inside your residence or inside certain locations depending upon wind conditions and building construction.**

**They are located at City Hall; Ninth and Main; Fourth and Park; Benning and Wells; Johnson and Chestnut; First and Phillips; Seventh and Golf; Ninth and Cox School (battery back-up); and Action and 40 Highway (battery back-up).**

**These outdoor weather sirens are tested for operational condition on the first Wednesday of each month, weather permitting, at 11:00 a.m.**

**Upon receipt of a Tornado Warning (Take Cover), this outdoor warning siren system will be activated. This system may be re-activated several times depending upon the weather conditions. To prevent confusion, an All-Clear is NOT sounded.**
